EDUCATION

Vellore Institute of Technology

Bachelor of Technology in Computer Science (CGPA: 9.24)

Chennai, Tamil Nadu

August 2024 – May 2028

Aditya Birla Public School

Class X: 96% — Class XII: 97.4%

Amethi, Uttar Pradesh

TECHNICAL SKILLS

Languages: C/C++, JavaScript, Java, Python, SQL (MySQL), HTML/CSS, , MATLAB

Frameworks: Express.js, FastAPI, React

Tools & Platforms: Git, Docker, VS Code, Linux/Bash, PlatformIO, Ollama, Make, GitHub Copilot, Claude Code, Gemini CLI

Coursework: Data Structures & Algorithms, Operating Systems, DBMS, Linear Algebra, Computer Networks

ACHIEVEMENTS

CodeChef : 44,799 (Max Rating 1400+)

LeetCode: 14,26,893 (Max Rating 1450+)

PROJECTS

Graph AI System for Healthcare Fraud | *Python, PyTorch, Geometric, Scikit-learn, Flask* Feb 2026 – March 2026

- Engineered an unsupervised Graph Autoencoder (GAE) processing 100,000+ provider records, constructing a KNN graph of 10,000 nodes and 50,000 edges to detect fraudulent billing across 7 metrics.
- Trained a 2-layer Graph Convolutional Network (GCN) over 200 epochs to evaluate reconstruction errors, successfully isolating the top 1% highest-risk providers for targeted auditing.
- Deployed an interactive Flask application generating dynamic Matplotlib and NetworkX visualizations, mapping real-time anomaly score distributions for 10,000+ entities.

Interactive Developer Portfolio | *React.js, TypeScript, Tailwind CSS, Vite*

March 2026 – Present

- Built a unique, terminal-inspired personal portfolio featuring a functional command-line interface and animated system boot sequence.
- Engineered a responsive and accessible UI using React and TypeScript, styled with Tailwind CSS, and optimized for high performance with Vite.
- Integrated custom interactive components to showcase technical projects and skills in an engaging, developer-centric format.

Authentication System | *React, Node.js, Express, MongoDB*

March 2026 – Present

- Built a complete login system that securely handles user registration, sign-ins, and active sessions using JSON Web Tokens (JWT).
- Strengthened account security by adding email-based OTP (One-Time Password) verification and easy password resets.
- Automated database cleanup to instantly remove unverified users, running on a fast React frontend and a reliable Node.js backend.

EXPERIENCE

Competitive Programming Member

Microsoft Innovations Club, VIT Chennai

Aug 2025 – Present

Chennai, India

- Coordinated technical events and coding contests
- Collaborated with other departments to plan and execute technical initiatives
